EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the second line of the specification, -- now abandoned, -- has been inserted after "1999,".

The following is an examiner's statement of reasons for allowance: The prior art does not disclose or fairly suggest to provide cores with the claimed filling factors in combination with the claimed drum rotation rate. The prior art is silent as to the filling factor of the cores and discloses a drum rotation rate that is 1/5 to 1/6 that of the lower limit in the claimed range. There is no suggestion in the prior art to provide cores having the claimed filling factors or to increase the drum rotation rate to values in the claimed range.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
